

CoPILOT[®] Truck

NAVIGATION FOR EVERY JOURNEY

Trusted by Drivers to keep them Safe, Compliant and Efficient, Every Mile, Every Day

Achieve fleet-wide efficiency and consistency, by empowering your drivers with highly accurate, safe truck-legal CoPilot[®] Truck navigation. CoPilot Truck helps maximize revenue and improve your bottom line by reducing fuel use and operating costs.

Why CoPilot Truck Navigation?

- Ensure accurate and safe routing by creating truck routing profiles specific to vehicle dimensions and load type
- Generate efficient and compliant truck-legal routes
- Lower fuel costs by reducing out-of-route mileage by up to 10%
- Reduce risk of costly bridge strikes and collisions with truck-legal routing
- Improve driver retention & recruiting by providing drivers with an effective, easy to use tool

Keeping Your Drivers Safe

- Non-distracting, driver-friendly user interface
- Clear 3D and 2D map views plus Driver Safety View for at-a-glance instructions to reduce in cab distraction
- Advance notice of upcoming lane changes with lane assist guidance and real road signage
- Prevent driver interaction when the vehicle is in motion with Driver Lock

Keeping Drivers Compliant

- Profile options for the entire fleet with settings for Heavy Goods, Medium Goods and Light Commercial vehicles
- Detour function quickly identifies an alternative truck-legal route
- Posted speed limit display plus audio and visual alerts notify a driver when they have exceeded the speed limit
- Keep drivers safe and legal with load specific routing based on a variety of Hazmat types and Prohibited Tunnel Categories

Keeping Fleets Efficient with Lower Miles & Optimal Fuel Usage

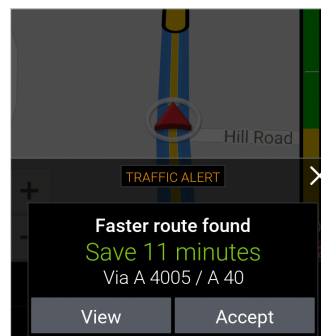

- On-board navigation for constant access to reliable routing
- Fast, automatic route generation and re-calculation directly on the device
- Options to integrate with workflow and dispatch applications to prevent incorrect address entry and reduce driver stress
- Build single or multiple destination routes and optimize up to 50 stops

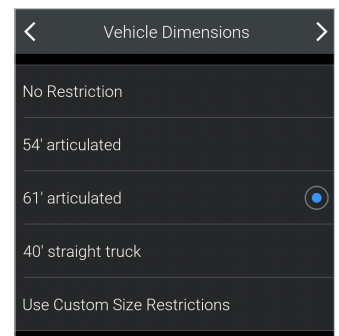

Lane Assist

ClearTurn™

ActiveTraffic™

Truck Routing Profiles

Integrated, Truck GPS Navigation

With options to integrate with leading transport management applications, CoPilot Truck provides efficient routes based on vehicle profile dimensions and load type.

CPIK

Embedded integration options via the CoPilot Integration Kit (CPIK)

- Ability to embed seamlessly within mobile business apps for iOS and Android
- Creates a single App, ensuring a user experience that is effective and easy to deploy
- Offers ability to overlay UX over the navigation app

SDK

Stand-alone integration alongside other apps via SDK

- Highly configurable and scalable for any size fleet deployment
- Provides total control of all aspects of navigation
- Can be launched from within other applications
- Automatically close, hide and toggle between applications

CoPilot Truck is Available on the Following Platforms:

Android

iOS

Windows
Windows Phone Windows
Mobile 6.5 Windows CE

Empowering the Journey to Success
