

# CoPILOT<sup>®</sup> TRUCK<sup>™</sup>

## CoPilot Truck Energy

In-Cab Navigation Integrated with Oil and Gas Lease Roads

**Safely navigate directly to the well head site with the only truck-specific GPS navigation solution integrated with the most detailed off-road mapping service\* in North America.**

With up-to-date maps of North America enhanced with oil and gas specific data and facilities, including wells, compressor stations and plants, CoPilot Truck Energy provides voice-guided, turn-by-turn directions to those off-road locations, delivering the oil and gas industry's most comprehensive in-cab navigation solution.

- 
- A map view showing the location of the well. A black callout box displays the well ID '33-061-90133-00-00', the name 'SOUTH ROSS S.W.D. 1', and the coordinates 'Water Injection, ND 38 15N 092W'. The map includes a 'Back' button in the top left, a 'Map' label in the top right, and a 'Set Destination' button in the bottom right. The bottom left has an 'Add to Favorites' button. The map itself shows a road network, water bodies, and several numbered location markers.
